

THE GOAL OF GAS48

is to get people to step on the gas for the next 48 hours and do whatever it takes to find two business partners that want to do the same thing.

If you found two people in 48 hours - which we have people doing every day - and duplicated that for 30 days, you would have 65,453 Brand Partners in your group and would make over \$100,000 in that 30-day period.

Even though many people get 2 or more business partners in their first 48 hours - and we feel everyone can do it - we are going to make winning the car much easier than that.

The first person that builds an organization of 8000 people - each with a \$20 Fuel Tab purchase - will win their choice of this Porsche or \$50,000 USD cash.

**It is based on your sponsorship tree, not the binary. This means everyone you sponsor would be level 1, and everyone they sponsor would be level 2, etc.*

***No more than 50% or 4000 people can come from one leg.*

****Only first orders count and only the \$20 options counts.*
